INFORMACIÓN DEL PRODUCTO

Pop Up Display
EXHIBITION FRAME CURVED

ALSO AVAILABLE AS „STRAIGHT"-VERSION

Extremely light popup display. A large, on-the-spot 2.30 m high advertising space can appear within minutes. Ideal for trade fairs, conferences etc.

Erected by just one person without additional tools. Already includes all components required to mount the graphics!

Design: folding fabric system, silver aluminium rods.
The carry case - now larger, roomier and includes a wood-laminate counter panel, which transforms the trolley case into a prestigious counter. And on top of that, you can decorate this counter in a matter of seconds with advertising graphics to produce the appropriate effect, thanks to the magnetic strip that is also already included!

Dimensions	Weight	Description	Product code
270 x 230 x 65 cm	32.0 kg	3x3 frames, curved	70100110344
325 x 230 x 95 cm	34.0 kg	3x4 frames, curved	70100110373

Assembly Instruction

1. Assembly the display construction:

Take out the frame from the hardcase and place it on the floor while the pins point upside.

Screw the fixation of the lamps on the inner and outer bars, depending on the final position (in the example outside).

Open the frame to its full size.

Mount the 4 end caps on the left and right bottom.

Plug in the connecting piece at the foot.

Connect the magnet bars vertically.

Plug in the bar at the top and attach it laterally at the bottom.

The frame is finished, only the lights and the panels have to be mounted.

Mount the lamp on the rear bar of the frame.

Fix it with the front lamp connection.

2. Panel instructions:

- Print measurements:
  curved: centerpiece: 70 x 230 cm, side parts 67 x 230 cm
  straight: centerpiece: 75 x 230 cm, side parts 70 x 230 cm
- Mount the magnetic stripes vertically on the panels.
- Attach the PVC stripes / hanger on the top of each panel and cut out the gap for the mounting parts / pins.
- Insert the PVC stripes at the top and fix the panels at the magnet bars.
